***Subject** Letter No 550 dated $\frac{24}{25}$ th November 1902, from the President of the D. F. Board, Bangalore, resubmitting the revised estimate for Rs 570 for sinking a well at Bijamana Talge in the Bangalore Taluq with information called for in the office docket no 8472-0 ¹¹ L. 7 29 01.

Note With his letter No 425 dated $\frac{28}{29}$ th Oct 1902, the President submitted the above revised estimate for sanction and stated that the original estimate was sanctioned by him for Rs 362, in Sept 1901, from Local Funds General, that as a hard rock was met with in the well, the estimate had to be raised to Rs 570, and solicited sanction to meet the ~~excess~~ cost viz 208 Rs. from the grant of Rs 5000 for the D. F. General, asked for in his letter no 358 of the 15 October 1902.

2. The estimate was then returned for certain explanation, with this office docket no 8472-0 ¹¹ L. 7 29 01 of 18/11/02.

3. Accordingly the President has ~~revised~~ resubmitted the estimate with the explanations ^{called} asked for, with the letter, under reference. The figures entered in

2

estimate have been checked and ~~now~~ found correct.

The President now states that the excess over the original estimate may be met out of District Funds out of the provision pointed out in his ~~the~~ previous communication No 425 dated 28th October 1902

Draft docket is submitted pointing out the discrepancy calling for additional information
and
9/12/02
11/12
Appd - J2
19/12/1902

(124) In reply to this Office docket No 10247 d. the 22nd Decr 1902 the
L.R. 29.00
(125) President reports in his letter No 706 d. the 10th Jan'y 1903 that the expenditure on the work in question was Rs 296-15-1 up to the end of June 1902 and that Rs 65- - 11 has yet to be paid ^{to the Contractor} which has been included in the Draft Statement of Incomplete L.R. & works and that as no grant has yet been sanctioned from L.R. & the excess ~~transference~~ of Rs 208/- over the original estimate is proposed to be met from the District Funds of the Bangalore L.R. Circle.

The Presd. has not pointed out the source in the current year's budget of the Bangalore L.R. Circle from which the excess of Rs 208/- over has to be met.

Draft calling for this information is submitted
and 18. 2. 1903
18/2/03

The above information was called for
in this office docket no. ³⁴³⁷ 5729-01 of 6-3-03.
and the President advises that, as the
Government have not yet sanctioned
any grant out of Local Fund General
the excess (\$5000) in question may be met
out of the Provision in the current year. & 4
Budget under "Public Works".

Order into draft.

Bangalore District.
District Fund Board President's Office
Bangalore 24th November 1902.

L. No. 550

From, H. H. - Sparkes Esq:
President of the
District Fund Board of the
Bangalore District.

To,
H. V. Nanjundappa Esq. M.A. M.L.
Secretary to the Government of
Mysore,
General Revenue Department,

Sir,
With reference to your docket
No. 8472 of the 18th November 1902, re -
L.F. 29-00
-turning for revision the revised estimate
for Rs 570/- for sinking a well at By-
-annapalya in the Bangalore Taluk,
I have the honor to state as follows:-

2. With regard to para 1- The
estimate has been carefully prepared
and scrutinized in this office. The
figures therein entered are all correct,
as will be shown by a memo of calculation
hereto

8

hereto attached

3. With regard to para 2 - As the well is circular, there is no breadth and the length represents the diameter in feet. The total contents of stone Revetment is 2410 cubic feet, for which 2404 is entered, allowing 6 cubic feet for depressions &c. The quantity of earth work (Item 1.) is $51\frac{13}{27}$ Cubic yards, as will be seen from the memo alluded to in para 1, for which 52 yards is entered in the Abstract.

4 With regard to para 3, - The estimate is herewith ²re. submitted with a duplicate copy and also with the original estimate.

5 The original estimate had been sanctioned out of Local Funds General But for want of Funds under this head, the excess is proposed to be met out of District Funds, to be met out of the Provision already pointed out in this Office letter No 425 of the 28th October 1902

I have the honor to be,
Sir,
Your most obedient servant,
Att. Parry
President.

Memo of calculations.

Item (1). Earthwork.

En. 68. 3

Diameter is 9 feet. Radius is $\frac{9}{2}$ feet.

$$\begin{aligned} \text{Therefore cubical contents} &= \frac{9}{2} \times \frac{9}{2} \times \frac{22}{7} \times 22 = \frac{9801}{7} = 1400\frac{1}{7} \text{ cub. feet.} \\ &= 51\frac{13}{27} \text{ cub. yards, for which} \\ &52 \text{ cub. yards are entered} \end{aligned}$$

Item (2) Blasting.

Diameter = 9 feet. Radius = $\frac{9}{2}$ feet.

$$\begin{aligned} \text{Therefore cubical contents} &= \frac{9}{2} \times \frac{9}{2} \times \frac{22}{7} \times 20 = \frac{8910}{7} = 1272\frac{6}{7} \text{ cub. feet.} \\ &= 47\frac{4}{27} \text{ cub. yards, for} \\ &\text{which 47 cub. yards are entered.} \end{aligned}$$

Item (3) Blasting.

Diameter = 8 feet. Radius = 4 feet.

$$\begin{aligned} \text{Therefore cubical contents} &= 4 \times 4 \times \frac{22}{7} \times 26 = \frac{9152}{7} = 1307\frac{3}{7} \text{ cub. feet.} \\ &= 48\frac{11}{27} \text{ cub. yards, for which 48 cub. yards} \\ &\text{are entered.} \end{aligned}$$

Item (4) Reforestment.

Quantity of actual work done by earthwork and blasting

$$\begin{aligned} \text{as per items (1), (2) + (3)} &= 1400\frac{1}{7} + 1272\frac{6}{7} + 1307\frac{3}{7} \\ &= 3980\frac{3}{7} \text{ cub. feet.} \end{aligned}$$

Quantity of work which would be done for a well of

$$\begin{aligned} 7\frac{1}{2} \text{ feet diameter and 68 feet } \overset{\text{deep}}{\text{high}} &= \frac{15}{4} \times \frac{15}{4} \times \frac{22}{7} \times 68 \\ &= 3005\frac{5}{14} \text{ cub. feet.} \end{aligned}$$

Therefore the mean of these two is taken for the work

$$\text{done in digging the well, (i.e.)} = 3492\frac{25}{28} \text{ cub. feet.} \dots (i)$$

$$\begin{aligned} \text{The quantity of space after reforestation} &= \frac{9}{4} \times \frac{9}{4} \times \frac{22}{7} \times 68 = \frac{15147}{14} \text{ cub. feet.} \\ \text{(as } 3\frac{3}{4} \text{ feet is the radius of the well + } 1\frac{1}{2} \text{ feet the breadth of reforestation)} \\ &= 1081\frac{13}{14} \text{ cub. feet.} \dots (ii) \end{aligned}$$

Deducting (ii) from (i) we get the actual reforestation which

$$\text{is } 3492\frac{25}{28} - 1081\frac{13}{14} = 2410\frac{27}{28} \text{ cub. feet. for which 2404}$$

is entered, deducting the remainder for expenses.
